

Response time can mean the difference between winning and losing

Semtech's RClamp2504N provides low clamping voltage and ultra-fast response time for ESD, Cable Discharge and Surge protection on Ethernet interfaces.

Key Features:

- Low working voltage (2.5V)
- Low clamping voltage
- Low capacitance (<5pF)
- Low leakage current
- Ultra-small package (2.6 x 2.6 x 0.60 mm)

Power It. Protect It. Connect It.®
