As defined in DFARS standard referenced above, Specialty metals is defined as:

Steel;
(A) With a maximum alloy content exceeding one or more of the following limits: manganese, 1.65 percent; silicon, 0.60 percent; or copper, 0.60 percent; or
(B) Containing more than 0.25 percent of any of the following elements: aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, or vanadium;

Other Metal alloys –
(A) Those consisting of nickel, iron-nickel, and cobalt base alloys containing a total of other alloying metals (except iron) in excess of 10 percent;
(B) Titanium and titanium alloys; or
(C) Zirconium and zirconium base alloys.

Any specialty metals incorporated in product manufactured by Semtech Corporation under this requirement are melted in the United States or a qualifying country as declared by our qualified suppliers.

A qualifying country is defined as any country listed in subsection 225.872-1 of the Defense Federal Acquisition Regulation Supplement.

Semtech has relied on information provided by our suppliers in making this declaration and has taken and continues to take commercially reasonable steps to provide representative and accurate information. Semtech’s standard Sales Terms and Conditions, including warranty
and limitations of liability, apply to the declarations made herein unless otherwise provided by a written contract or other agreement signed by the parties.

Semtech Corporation is pleased that we are able to accommodate your needs and look forward to a continued and successful business relationship.

If you have any questions, do not hesitate to give me a call.

Sincerely,
